Item 1.01 Entry into a Material Definitive Agreement.

On November 12, 2008, ViaSat, Inc. entered into a Launch Services Agreement (“Launch Services Agreement”) with Arianespace, a European launch services provider, for the launch of ViaSat’s high capacity ViaSat-1 satellite. Pursuant to the Launch Services Agreement, an Ariane 5 rocket will launch the ViaSat-1 satellite to geostationary transfer orbit from the Guiana Space Center in Kourou, French Guiana. The total price for the launch is expected to be approximately \$108 million, subject to certain adjustments. Under the terms of the Beam Sharing Agreement dated January 11, 2008 between ViaSat and Loral Space & Communications, Inc. (“Loral”), Loral will reimburse ViaSat for 15% of the payments due under the Launch Services Agreement (and ViaSat will remain responsible for the remaining 85% of the payments). The amounts due under the Launch Services Agreement are payable in periodic installments from the date of execution of the Launch Services Agreement through the launch of the ViaSat-1 satellite, with a substantial majority payable during the final 12 months prior to launch. Although the launch date is projected to occur in early 2011, ViaSat may postpone and reschedule the launch for any reason at its sole discretion. ViaSat also has the right to terminate the launch with notice to Arianespace and the payment of a termination fee in an amount that would be based upon the date ViaSat exercises its termination right. The foregoing description of the Launch Services Agreement does not purport to be complete and is qualified in its entirety by reference to the Launch Services Agreement dated November 12, 2008 between ViaSat, Inc. and Arianespace.
